Notes:

New clients - how did you hear about us?

Do you have a CFL-Pro? For details please see website

YOUR ORDER:

Number of rolls	Film stock (e.g. TRI-X 400)	Film type (35mm* / 120) <small>*Please specify if Xpan/Panoramic 35mm</small>	Scan size (S/M/L)	Push/Pull?*
				Number of stops - for pull/+ for push

* For most film stocks we can pull up to 1 stop & push up to 3 or 4 though this may vary. We will push or pull in accordance with your instructions but please check the manufacturer's recommendations for the film stock. Push processing increases contrast & grain. Please use - for pull/+ for push. We edit out dust visible at 33% magnification in Photoshop

NEGATIVE RETURNS Please tick your chosen option:

You can dispose of my negatives once I've received my scans safely	<input type="checkbox"/>
Please save my negatives To reduce postage costs for you we will cut, sleeve and archive your negatives for up to 12 months or until your negatives reach a thickness of approximately 1 inch, then send you an invoice for their return via mail.	<input type="checkbox"/>

SCAN SIZE - Our approximate scan sizes (shortest edge) are: Small: 2433 pixels. Medium: 3047 px. Large: 3649 px.

PRICING - For pricing information please visit <http://canadianfilmlab.com/pricing>

Please visit <http://canadianfilmlab.com/canadian-film-lab-order-form/> for information on how and where to ship your film

When we receive your film we will email an acknowledgement & online invoice to you, which will include the date by which you can expect your scans. When ready, we will email you a link to download your scans.

Our standard target turnaround time for b/w is up to 7 - 10 working days from the date you pay your invoice.

* We will use this email address to add you to our newsletter mailing list and to send you occasional important updates about our services. We promise we won't spam you, but let us know if you prefer not to be included.
